

BOGGS EXPLAINS STATE ROAD LAW

Says New Measure Has Wonderful Possibilities For Future Building of Highways

State Road Commissioner Joe S. Boggs—Madison's own Joe—is sending out to County Judges and Road Engineers, a comprehensive digest of new state road law. Both Judge Price and Judge Baxter have received it. Mr. Boggs says that "there is embraced in this new law quite an extensive program which will take several years for its ultimate completion, but to my mind, this law has wonderful possibilities for the future and I believe that the next few years will clearly show that no more forward looking movement has ever been made in our state than the enactment of this law. We have now passed through the State Aid period, which was necessary for the education of our people, but the time is now ripe for the creation of a State Highway system, as set forth in this law, that will result in the construction and proper maintenance of the trunk line roads that will best develop each county in Kentucky.

Commissioner Boggs in writing about the new road law, says: "Frankfort, Ky., March 24. To all County Judges and County Road Engineers:—

As you are aware, the recent General Assembly which has just adjourned, passed a new road law creating a system of State Highways which will be constructed and maintained with State and Federal moneys. This law becomes effective July 1st, 1920, and as this office has been advised that a great deal of confusion exists in our State at the present time relative to some of the provisions of this law, I am taking for liberty of explaining the "high points" of same for your information. I trust by now you have received a copy of this law and have carefully digested its requirement.

One of the main features of the new law is that a non-salaried, bi-partisan board, consisting of four members, two from each of the dominant political parties of our state constitutes a "State Highway Commission", its members to be representative business men of Kentucky who are well acquainted with the state as a whole and who are to be not less than thirty years of age. This Commission in turn selects the "State Highway Engineer" who will be the executive head of the department and whose acts will be subject to the approval or disapproval of the Commission.

The new law has designated a system of State Highways, in which is embraced about 3500 miles of road of which, at the present time, about 900 miles have been improved under the State Aid plan. This system is designated in the new one trunk line system built and maintained under state supervision.

Two of the most important provisions of this new law, as relate to our present program are in Paragraph 2 and Paragraph 11 of the new law. One of the provisions of Paragraph 3 relating to county appropriations, donations, subscriptions and gifts on either State or Federal Aid projects now under construction or which are being surveyed and planned for roads is as follows:—

"The said State Highway Commission shall ascertain all gifts, donations or appropriations which have heretofore been made or promised by any person, corporation, county or municipality in aid of the construction of any road known as a State Aid or State and Federal Aid road, where such gift, donation or appropriation has not been completed, and said gifts, donations or appropriations, or any promise thereof, shall be binding and of full effect the same as when made, and nothing in this act shall be construed to affect the validity thereof."

This provision clearly sets forth that no reimbursement will be made on projects of this character which have already been financed or which will be financed under past promises up until July 1st, 1920.

The program of construction which has been laid out in this bill will require at least ten to fifteen years for its ultimate completion, even though future Legislatures furnish sufficient revenues for that purpose, and counties which repudiate their present agreements or promises with this office in regard to projects which are now under way or which will be under way by July 1st, 1920, will be in grave danger of not only losing their Federal moneys which have been set aside for them, but perchance may postpone the construction of certain projects, until years in the future. For these reasons, it is very necessary that contemplated improvements which have been under way for some time

KIDNAPPING SUSPECT HELD AT LOUISVILLE

(By Associated Press)
Lexington, Mar. 27—Search for the kidnapper of Paul Little is now more than a day old with no arrest in sight, police said here today. The authorities, however, say they have a good clue. The while Middle West is being covered in the search. The boy today seemed none the worse for his experience.

Suspect Held At Louisville
Louisville, Mar. 27—A man giving the name of George Martin, sometimes known as Miller, was arrested here today on a charge of vagrancy after offering an automobile for sale. Clothing in the automobile indicated another man had been with him. He also is being held for investigation in connection with the Little kidnapping at Lexington.

be handled as if no new road bill had been enacted.

One of the provisions of Paragraph 11 relates to those counties that desire to anticipate the construction of primary roads that cross their county and reads as follows:

"If any county desires to construct any part of any primary road before the state may construct same under plan and system herein designated, such county shall make request of the State Highway Commission so to do, when such request is made, the state highway commission shall immediately investigate such request, and, if they find that the county has funds available to construct any part of such road, and will pay for the construction thereof, the State Highway Commission may take up immediately by the construction of such road, but they shall not do so until the county has taken such steps as they may require to make available subjects to their own sufficient funds to pay for the construction of such road. When the county has satisfied these requirements, the State Highway Commission may proceed to construct such road in the same way and manner under the same regulations that they construct other roads as herein provided. They shall keep careful account of the money thus of which such road is a part shall have been completed, the state shall refund to the county the full amount of money thus advanced with proper certification of the State Highway Commission."

This is the only provision in the new road bill which has any connection with reimbursement and you will carefully note that an arrangement of this kind will need to be perfected with the new State Highway Commission, and that it will in no way be mandatory for them to enter into such agreement, being purely within their discretion. I feel sure in some instances, to hasten the construction of certain important projects in our state, and this Commission will see fit to enter into such agreement with counties that have funds available for the financing of the project, but do not believe that indiscriminate use will be made of this plan, as it will create too large a liability for future years to take care of. You will also note that even though such an arrangement is made, no reimbursement can be given until the project of which the road in that particular county is a part has been completed in its entirety.

To my mind, the two above mentioned paragraphs are of more concern to the various counties at the present time than any other part of this new road bill, and I trust that this explanation, although a personal one, will be of some benefit to you in a more thorough understanding of the present status of road construction up until the time the new law becomes effective.

JOE S. BOGGS,
Commissioner of Public Roads.

33 CITIES ADOPT "DAYLIGHT SAVING"

(By Associated Press)
New York, Mar. 27—Daylight saving will go into effect at two o'clock tomorrow morning in at least 33 American cities and towns, notwithstanding the repeal of the law by Congress last summer over President Wilson's veto, according to the National Daylight Association in a statement here today. At that time clocks will be set ahead one hour. The cities and towns which have adopted daylight saving ordinances are as follows:

New York; New York City, Buffalo, Cohoes, Troy, Utica, Syracuse, Yonkers, Gloversville, New Jersey; Camden, Plainfield, New Brunswick, Hoboken, Jersey City; Massachusetts; Clinton, Lynn, Worcester, Marlboro; Pennsylvania; Philadelphia, Pittsburgh, Curry, Allentown, Harrisburg, Easton; Connecticut; Hartford, Putnam; Maine; Portland, South Portland; New Hampshire; Manchester; Michigan; Detroit, St. Joseph; Colorado; Denver; Ohio; Columbus; Delaware; Wilmington.

"We do not anticipate any confusion," said Marcus M. Marks, president of the organization which has been fighting for daylight saving. "The time adopted by New York City, for instance, will be automatically observed by all cities and towns within a radius of 50 miles or more of the metropolis. The same can be said of Philadelphia and Pittsburgh. The New York Central, the New York, New Haven & Hartford, Lackawanna, Reading; Boston and Maine, and Maine Central railroads are preparing to operate their local trains so as to take care of the commuters in the territory affected. Cleveland last year operated on time an hour ahead of contiguous territory but there was no confusion there."

HUGH SAMUELS IN RAID IN MENEFEE COUNTY

Deputy Internal Collector Hugh Samuels is home from the mountains where with Deputies Geo. L. Hannon and Neil Guilfoyle, they captured O. F. Spencer an alleged moonshiner and took him before U. S. Commissioner W. H. Wood at Mt. Sterling on a charge of violating the federal prohibition laws. The still, claimed to have been owned and operated by Spencer, was located on the east fork of Slate Creek in Menefee county, only two miles from the Baldard still, which was captured three or four weeks ago. The still was destroyed by the officers with exception of the copper coil, which was exhibited in court. Spencer waived examining trial and was held under \$2,500 bond to appear before Judge Cochran in Richmond Federal Court April 23.

IS THERE REACTION AGAINST DROUTH

(By Associated Press)
Wilmington, Del., March 27—The way to decide whether there is a reaction against prohibition is for candidates for Congress and President, who are against prohibition, to say so openly and advocate submission of the 18th amendment. Wayne Wheeler, general counsel for the Anti-Saloon League, declared at a conference of dry leaders here today. "We gladly accept the gauge of battle," he said.

Another Test Suit
Washington, March 27—The constitutionality of the prohibition amendment and parts of the enforcement act are attacked in a brief filed in the Supreme Court today by counsel for Christian Feignspan a Newark brewer. The brief was prepared by Elihu Root and Wm. D. Guthrie. It contends the amendment is invalid because it is outside the scope of constitutional limitations, impairs the states' police powers and was not legally ratified by three-fourths of the states.

"The Hellion" A Thriller
"The Hellion" which comes to the local theatres today and tonight, is said to be an unusually spectacular picture, sensational in its emotional quality, and borrowing special fascination from effective use of the idea of hypnotic influence.

The story concerns Mazy Del Mar, virtual slave to a dive proprietor, (the "hellion") who holds her loyal to him as his star entertainer through the mesmerism power he exerts over her with his eyes. How she escapes from his control and is introduced into to home of the Harpers, where she impersonates their daughter, Blanche; how she wins the heart of George Graham, though undergoing agonies of remorse for the deceit she has practiced, and how she is brought finally to the point of confession, furnishes material for an emotional drama that from first to last keeps the spectator at the highest pitch of interest and suspense.

MELLINGERS LEAVE AFTER SELLING HOME

Mr. and Mrs. Alex Mellinger and family are leaving Sunday for Toledo, Ohio, for a visit to relatives. They sold their attractive bungalow on West Main street some weeks ago to Mr. W. F. Park, who bought it for his daughter and son-in-law, Mr. and Mrs. B. Z. McKinney, it is understood, and who get possession Monday. This is one of the most modern and handsomest homes in Richmond and is admired by all.

After spending some time in Ohio, the Mellingers plan to take a motor trip west, and visit as far as California. In fact, they may locate there, if the country and opportunities impress them. Many friends will regret to see this popular family leave Richmond, but the old saying: "They always come back to old Madison", may hold good in this case, too.

UNCLE SAM AFTER CITY DRUGGISTS

(Louisville Herald)

Revocation of federal licenses to prescribe whisky or to fill such prescriptions will be asked for in the cases of four Louisville physicians and three druggists according to W. B. Stanfield, one of the prohibition inspectors working under former Gov. Jas. D. Black, chief supervisor. Both refused to make public evidence on which they will base their report to Jas. Combs, thru whom recommendations to Washington will be made. Should the federal licenses be revoked, it is more than likely that the State Board of Health also will take action relative to the physicians. The board has no authority over the druggists, and according to Robt. J. Frick editor of the Kentucky Druggist, even the State Board of Pharmacy will have no legal right to revoke the druggists' licenses. The physicians named are Dr. S. M. H. Tyler, 2423 West Walnut street; Dr. George and William Dwyer, the Starks building; and Dr. Marietta Potter, 1406 West Walnut. The drug stores whose permits, Mr. Stanfield said, were to be revoked are the V. B. Million Drug Co., 12th and Broadway; Matthews, No. 1, 1731 West Chestnut and Thomas J. Keany, 28th and Walnut streets.

This is considered by the French to indicate that Germany is endeavoring to avoid executing the terms of the treaty.

SWIFT'S PRODUCE REVIEW
Receipts of eggs in the large, consuming centers are only enough to take care of the heavy demand for Easter trade. As quality is now at its best, surplus over consumptive demand for the next few months will go to storage. Deliveries of poultry by the farmers continue light, due to increasing egg production. For this reason frozen poultry is meeting with a good demand. Reports that large quantities of Danish butter are being shipped to this country have a depressing effect on the market. Added to this is the fact that home production is increasing. All signs at present point to lower butter prices.

NIGHT RIDING AGAIN IN WEST KENTUCKY

200 Men Raid Mayfield and Burn Tobacco Chute In War For Better Prices

(By Associated Press)
Mayfield, Ky., Mar. 27—A band estimated to number 200 men, from the northern part of the county, came here shortly after midnight and applied torches to the tobacco chute in the western part of the city. The chute which was built two years ago, was destroyed. This is the first outbreak of night rider troubles in Western Kentucky in 13 years. The renewal of night riding is said to be the result of the fight by tobacco growers in this section against falling tobacco prices. Three growers recently organized and hundreds agreed not to sell their crops on any warehouse floor.

Recently twenty McCracken county growers, at the point of a shot gun forced several growers en route to Paducah with tobacco to turn back.

Burley Company Fights Taxes
Officials of the Burley Tobacco Company of Kentucky are in Washington to confer with officials of the Internal Revenue Department in regard to excess taxes which they claim have been levied against the company. They say the government is seeking to collect \$500,000 more in taxes than is due. Rodman Keenan, former clerk of the Kentucky Court of Appeals, attorney for the company, will submit a brief. Mr. Keenan is in Washington with Clarence LeBus, Cynthia; Lister Witherspoon, Versailles, and Stucky, Ghent, officials of the company.

Says Tobacco Men Must Organize
Montgomery county tobacco growers held a meeting at Mr. Sterling to hear Emmett Orr, Field Secretary of the Allied Tobacco League, explain that the organization was formed for the protection of the tobacco growers and manufacturers and that unless immediate steps were taken to protect this industry that the growers would be put out of business before they knew it. Mr. Orr said that it was not a question of what the anti-tobacco people proposed to do but what they had already done. He recited the fact that the "No-tobacco League," of Butler, Ind., claimed a membership of 750,000 members, that anti-Cigarette League of Boston and an organization of same name in Chicago, were active in their opposition besides numerous organization. That in the states of Arkansas, North Dakota, Kansas, Tennessee and Wisconsin the possession of cigarettes was prohibited, that the states of Oregon and North Dakota would, this year, vote upon the proposition of eliminating the use of tobacco in any form, that Georgia and Maine came near eliminating the importation and exportation of tobacco and that the Kentucky cigarette tobacco was being discriminated against in the matter of taxation, that even in Kentucky a retail dealers was taxed ten dollars for the sale of the cigarettes while other tobaccos in the shape of cigars and plug tobacco were being sold without a state license thereby prohibiting the sale of light tobaccos by the small dealers.

Morrow Violates a Pledge

The Stanford Interior Journal takes Gov. Morrow to task for openly violating his campaign promises about pardons, with regard to the pardon of Judge Jarvis at Somerset, and a man named Cunningham, a railroad detective, who murderously shot the Cincinnati Southern agent at

Williamstown, who was unarmed and unprepared, when Cunningham deliberately provoked and attacked him and would have murdered him in cold blood, had not his victim proven entirely too good a man for him. Ed Morrow's action in pardoning this fellow is entirely inexcusable from every standpoint. He has openly and flagrantly violated his pledge to the people of Kentucky, in regard to the care he would use in exercise of the pardoning power. And a man who will violate his given word in one instance, will do it in another. We happen to be entirely familiar with the circumstances of the crime of which Cunningham was guilty and know whereof we speak when we assert that Morrow had no grounds for this pardon, unless it was that Cunningham was perhaps a good friend of Sam Morrow, also employed as a railroad detective, and if such a flimsy excuse can be used as a basis for executive clemency, we may expect every murderous inclined villain who feels the weight of the law, and who may have happened to have a speaking acquaintance with one of the Morrows, to be quickly turned loose upon the public again by the man who has thus violated his pledge to the people.

JAPAN'S CHILD LABOR WORKS A 16-HOUR DAY

Nearly Third of Nations Two Million Operatives
are Women and Girls—Discontent Is
Growing Among Them.

Cherry blossoms and snow-capped mountains mean little to these baby laborers of picturesque Japan. For sixteen hours a day they stand at their machines, with only one or two rest days a month. Their homes are the factory dormitories, and after two years many of them contract tuberculosis or other diseases which compel them to give up work.

Six hundred thousand of Japan's 2,000,000 operatives are women and girls, and some 300,000 are from ten to eighteen years of age. This is one of the reasons why the Interchurch World Movement has mapped out an educational program which, during the next five years, will help the Japanese government solve some of its problems.

The cost of living in Tokyo is greater than in New York or London. There are frequent strikes, and increased suffering and discontent mark Nippon's industrial world. Working hours are excessive.

The Protestant churches which are cooperating in the new world program believe that one way of working for the children is to enlarge the churches' educational program. A part of this project, too great for any single denomination, is the establishment of a Japanese Christian university.

PICKFORD COMING HERE IN "POLLYANNA"

When the United Artists Corporation was formed, the aim of the four stars—Mary Pickford, Charlie Chaplin, Douglas Fairbanks and D. W. Griffith—was to establish a medium through which to convey bigger and finer photoplays to the motion picture public.

Under this plan three pictures have already been released—two by Douglas Fairbanks and one by D. W. Griffith. Now comes Mary Pickford with "Pollyanna," her first "Big Four" offering, and the fourth film to be handled by the United Artists since the organization's birth, which will be shown at the Richmond theatres Thursday and Friday, April 1 and 2.

Because this is her first production under the arrangement of individual release every effort has been put forth by Miss Pickford to make "Pollyanna," a bigger and better picture than anything she has ever done before.

In order that a real New England village might be photographed, Director Powell took the entire company two hundred miles from Los Angeles to Independence, a town a mile high in the Sierra Nevada Mountains, and the only typically New England hamlet in the west which had never before posed for a movie camera.

When it was found impossible to locate a house that would answer for the home of Aunt Polly, Miss Pickford ordered one built. The set was completed at a cost of \$10,000, and consisted of a front, side and back, with half a

Would You Lose If Your Property Burned Today?

The destruction of that \$5,000 home you built a few years ago would lose to you the original cost, plus another \$5,000. For it costs \$10,000 now to build the \$5,000 home of 1914.

Likewise the loss of today of the business property that cost \$50,000 before Germany went mad, would be \$100,000—probably \$100,000 would not replace it.

Hundreds of Presbyterians—and others too—when they made out their income tax return were surprised. The amount they had given to church and benevolences during the past year was smaller than they had expected. Some of them had determined that they ought to approach as nearly as possible to giving one-tenth to the Lord's work, and are making extra gifts now.

The books of the mission boards of the Presbyterian Church close March 31. All money pledged through your Presbyterian Church to the general work of the denomination ought to be paid at once.

Your church treasurer should be able to send before the last week of March all the cash promised from your church.

Take an extra offering to church Sunday—and invite your neighbor to go along if he doesn't worship anywhere.

Be ready to make a generous pledge for next year when the time comes.

Give proportionately! Give consecrated dollars!

Any Presbyterian pastor will furnish details.

In all your troubles you can al-
ways find something to be glad
about, says

"POLLYANNA"

as portrayed by

Mary Pickford

Her newest picture from Eleanor
H. Porter's novel, "Pollyanna."
Her gladness is contagious.
See the picture that made mil-
lions happy, that keeps the laugh-
ter chasing tears, and makes the
heartstrings sing.
In addition to "Pollyanna," we
will show as an extra feature on
Thursday, April 1st, and every
Thursday thereafter, the wonder-
ful animal serial, said to be the
greatest and most sensational
serial ever filmed.

'The Lost City'
featuring
Jeneya Henson

Filmed in the heart of the jungle.
If you are looking for thrills,
mystery, love, adventure just see
the first episode of this amazing
serial. Never before has such
daring feats been performed be-
fore a camera. Something new;
something entirely different than
anything you have ever seen.
Every kind of a wild animal in
existence will be shown in this
picture. Bring the children—
they'll enjoy it as well as you.

GLAD TO TESTIFY

Says Watoga Lady, "As To What
Cardui Has Done For Me, So
As To Help Others."

Watoga, W. Va.—Mrs. S. W. Gladwell,
of this town, says: "When about 15 years
of age, I suffered greatly. . . Sometimes
would go a month or two, and I had
terrible headache, backache, and bearing-
down pains, and would just drag and
had no appetite. Then . . . it would last
two weeks, and was so weakening,
and my health was awful.

My mother bought me a bottle of
Cardui, and I began to improve after
taking the first bottle, so kept it up till I
took three. . . I gained, and was well
and strong, and I owe it all to Cardui.

I am married now and have 3 children
... Have never had to have a doctor for
female trouble, and just resort to Cardui
if I need a tonic. I am glad to testify to
what it has done for me, so as to help
others."

If you are nervous or weak, have head-
aches, backaches, or any of the other
ailments so common to women, why not
give Cardui a trial? Recommended by
many physicians. In use over 40 years.
Begin taking Cardui today. It may
be the very medicine you need.

IN OLD KENTUCKY

A house rat killed by Dewey Day and Lloyd Case at Mt. Olivet was so large that they skinned it, and the hide on a board measures 25 inches.

Negotiations are under at Ashland for merging the Merchants' Bank with the Ashland National, with a million capital and surplus, and creation of a \$300,000 bank building.

Mistaken for another, it is believed, Miss Clara Keith, 29, missionary back from Central Africa, was shot through a window while on a Louisville street car and wounded in the arm by a man who escaped.

The Woodford County Board of Equalization made the increases demanded by the State tax commission, adding \$400,000 to lands and \$75,000 to town lots. The original assessment was \$21,600,000.

At Lexington, C. O. Rison filed suit for \$50,000 damages against W. E. Kesselburgh, Jr., and J. F. Eagan, alleging libel in connection with his acts as receiver for the Trinity Refining Co.

In a petition for divorce at Owensboro, Mrs. Lother Ashby says that her husband drove her from home. She asks alimony of \$2,000 and \$35 per month.

At Harrodsburg, the will of Mrs. Miriam F. Munday cuts off her daughter, Alma Rosa, with \$1 and divides the estate among three other children. W. I. Massie's will provides that his widow shall have the estate unless she should remarry, in which event his property shall be distributed among children.

Reports from Aiken, S. C., are that Miss Martha LeBus is in a critical condition from four broken ribs, one of which penetrated the lung, and a crushed hip, sustained when thrown and trampled by a horse.

The feature of a "storm party" which neighbors gave at the home of Fisher Mark in Montgomery county, was an old-fashioned square dance that was continued until 3 o'clock.

The congregation of the Frankfort Christian church voted to erect a new building, and a committee was charged with securing a location.

E. F. Sims is having a mile track built on his Nahapa estate near Paris, which crosses Stoner Creek twice, and will be one of the costliest in the country.

In a mock election which closed a week's studies in citizenship Georgetown women learned to mark and stamp their first ballots.

Efforts are being made to bring back as speedily as possible. Grant Smith charged with assault upon a 14-year-old girl in Fleming county he having been caught at Pontiac, Mich.

At Bowling Green, \$2,000 loss was sustained when oil from a new well on the Savage farm caught fire from the engine and the drilling rig was destroyed.

A dog which killed six lambs and three ewes belonging to J. L. Kiethen, in Woodford county, was followed to Jacksontown, a negro village, and there killed by a deputy sheriff.

At Williamstown, four children of J. W. Slaughter will seek to break their father's will bequeathing his estate to their stepmother who has just died. Should it be sustained, her brothers and sisters would secure the property.

O. F. Spencer, charged with operating a still in Menifee county, which prohibition agents have just destroyed, was held to the federal grand jury under \$2,500 bond.

DROUTH HELPS AUTO SALES

What effect is prohibition having on automobile and tire sales? Country-wide reports sent in to the B. F. Goodrich Rubber Company indicate reply to this question entirely favorable to the retailers of rubber casings and tubes and at sharp variance with the prognostications of a pessimistic few who foresaw a decline in sales during the era of the "great drouth". Dealers in motor cars and accessories report steadily increasing sales and say that elbows formerly crooked over bars are now crooked around the steering wheels of motor cars.

Nickels, dimes and quarters that formerly trickled into the cash register of J. B. & Co., are now going into savings banks, an when several hundred dollars are accumulated, a motor car is purchased.

Expenditures in cool draughts of "lager" have been transferred into investments in refreshing ozone. The exhilarating "wet goods" of the nation is now gasoline, according to garage men.

GRANT SIX

Praised Everywhere

Few new models have ever evoked such nationwide enthusiasm as the new Grant.

And never has enthusiastic appreciation been more honestly earned.

For besides being a model of beauty and graceful design, the new Grant brings qualities of ease of operation that keeps fresh springs of enthusiasm constantly bubbling.

They speak of its surprising speed. It slips along so smoothly, at say 30 to 35 miles an hour, that it challenges the admiration of those accustomed to driving cars that cost twice its price.

"It hangs to the road in great shape." "Smoothest riding car I was ever in."

Others praise its easy steering, its

short turning radius, making it possible to park in small space.

Again they say its brakes operate with surprising ease, its clutch engages and disengages with wonderful smoothness, and it rides so comfortably that it sets an entirely new mark for light cars.

And everybody who has tried it says it's a wonderfully comfortable car to ride in.

If you haven't seen the new Grant Six, make it your business to see it soon.
